

Dear 7th & 8th Grade Families,

IT IS GETTING CLOSE TO MY MATERNITY LEAVE. :o) If anyone has questions for me, please contact me as soon as possible. Michelle Gilbert will be our substitute. I am very excited to work with her in making sure your students receive the best possible education for the remainder of the year!!!

Our Learning Center will be hosting an Afterschool Homework Club again this week on certain days from 2:45 to 3:45 in Room 18. Please contact the office for more information on the days scheduled.

We are continuing to work hard towards our mathematical goals. We are focusing on Manipulating Polynomials in 8th grade and Linear Functions & Their Graphs in 7th grade. I am also working with students on their organizational skills.

Your student should be spending approximately 45 minutes a night on homework, If they are spending longer, please have them stop and bring in their questions to me during the next class. Please don't hesitate to contact me with any questions.

Email: kbarnard@shastalink.k12.ca.us

8th Grade - Manipulating
Polynomials

Monday	6.3.3
Tuesday	6.3.4
Wednesday	6.3.5
Thursday	Quiz 6.3
Friday	6.4.1
